altogether favorable, but such as it was it was helpful to what Wall street speculators love to call "the constructive" side of the stock market.

Announcement was made of the failure of the Union Bank, of Brooklyn, with taken before the end of the week. Decided weakness again developed in various copper mining shares in the Boston which has been exhibited in other direc-

which has been exhibited in other directions for more than a fortnight past.

On the other hand, the Brooklyn bank suspension was rightly regarded as being the bank suspension was required to be a bank suspen no more than an unavoidable result of the 1907 financial troubles, and one that has for a long time been considered inevitable in banking circles. It is believed that depositors will not experience any that depositors will not experience any the control of the losses from the affair, and that the worst little while.

NEW YORK MONEY.

New York, April 5.—Money on call at the atock exchange to-day opened at 2% per cent, highest 3, lowest 1%, closing 3 per cent. Most of the day's loans were made at 2% per cent.

Time money was somewhat firmer, due not so much to any special increase in the demand, but rather to a diminution in supply. The best demand expected to be for ninety days' maturities, and four months' loans, as well as for six months, on industrial collateral. Rates, 3% a4 per cent for sixty days, 4 for ninety days, 4 a4% for four, five, and six months, and over the year.

Mercantile paper was bought moderately. The assortment was fairly large, and comprised some attractive names. Rates, 4% a5 per cent for sixty and ninety days' indorsed bills receivable; 4% a5 per cent for choice four and six mor hs' names; 5% a6 for others.

Yesterday being election day in Chimembers of the New York Stock Exchange, Hibbs cago, the board of trade took a vacation, and the grain pits of that city were Call money: Open, 27%; high, 27%; low, 2%; close, silent. Telegraph wires continued to bring in news of the condition of the weather over the vast wheat belt of the country, but for once these bulletins had .2W,100 no effect upon quotations. Brokers were busy at the polls or at their recreations for the day, and the great building on La Salle street had much the appearance of Sunday. No grain quotations were sent out.

At a meeting of the directors of the Firemen's Fire Insurance Company yesterday Allan E. Walker was elected president to fill the vacancy caused by the death of E. G. Davis, formerly at the head of the company. J. H. Bierboken was elected a director to fill the vacancy in the board. Mr. Walker, the new president, is understood to be the majority stockholder in the company, and for some time has been intimately acquainted with its affairs.

Trading on the local stock exchange yesterday was meager, being confined to the sale of about \$20,000 in the 5 per cent bonds of the Potomac Power Company, of the consolidated series, and some broken lots of stock. COTTON MARKET.

Quotations furnished by W. B. Hibbs & Co., members of the New York Stock Exchange, Hibbs Building. New York, April 5.—Liquidation, following further New York, April 5.—Liquidation, following further Texas rains and reports of a weaker market in Liverpool and of less activity in Manchester, caused a sharp fall in prices. It was also said that Chicago people were selling freely. A rumor that Mr. Patten had sold his holdings had more or less effect. The idea was prevalent, too, that the crop outlook, so far as can be judged at this early stage of the season, is favorable. The sudden change in the color of Liverpool advices was more or less disconcerting to some of the friends of the long side, although leading builts fid freely for large blocks. Rainfalls of one-half to one inch were reported in different parts of Texas. Liverpool cubled that the market there was very soft; that Manchester was quiet, and that the late decline in prices was checking business.

Futures declined 2s to 49 points, July being weakest, but recovered part, closing steady at a net decline of 13 to 37 points. Estimated sales, 700,000 bales.

In Choosing Your Bank

It is just as well to inquire into its standing in the financial world and what advantages it can offer you. Safety is naturally the first consideration. This can best be judged by its conservatism and the character of its officers and directors. Its facilities and the accommodation it offers to depositors are also points to consider.

If you are contemplating opening a bank account or making a change, we shall be glad to talk the matter over with you and show you why you will find this bank a thoroughly satisfactory one for either commercial or personal accounts.

Nine Tons of Interest. The interest paid by savings banks to their depositors each year would make an endless strip of dollar bills long enough to border the whole United States. If paid in silver dollars, they

would weigh nine tons. Are you making your earnings earn you some of these

dollars? Have you a savings account with this bank? We pay 3% interest, computed every six months.

First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "git-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and investments."
